Santa Semi Makes Annual Stop In Cosmos

Pic by Pat Weseloh

Commentary by Deb Minnick

The Santa Semi arrived in Cosmos Thursday, Dec. 12th, on a brisk 3 degree evening escorted by the Cosmos Fire Department. Kids, parents and grandparents came dressed for the weather, wearing snow pants, jackets, hats and mittens.

Before Santa's arrival, visitors could come inside Peace Lutheran Church to have a hotdog, beans, chips and a hot chocolate. Everyone went outside to greet Santa all toasty warm and came back in with bright red cheeks and noses.

Santa came inside greeting everyone with a big "HO,HO,HO, MERRY CHRISTMAS". He let kiddo's sit on his lap and tell him what they wanted for Christmas, as parents took pictures. His helper the Elf, handed out treat bags provided by the Cosmos Community Club. The Cosmos Comets 4H Club provided fun activities and bingo games. They also provided downsized Santa and Elf suits and hats for the kids try on and pose for a picture. Everyone seemed to have a wonderful time as there was lots of laughter and smiles.

Little Ones Experience Lietzau Taxidermy

Pics and commentary by Angie Degner

On Wednesday, December 11th, the UCAP Cosmos Head Start went to the **Frontier Era Lietzau Taxidermy**. Adam and Matt gave them a tour and let the children and adults use their senses to explore. They were able to experience the sight and feel of different types of hides, listen and try the drums and shakers and also used their smell because the buffalo hides were being salted. If you have not been there, it's a great place to go. It's also owned by some wonderful people!

Danielson Hustlers 4-H Club Report

The Danielson Hustlers 4-H club meet on the tenth of November 2024 at the community center in Grove City. In this meeting we went over how we did as a club at the 4-H awards banquet. We got a club enrollment award and were awarded a purple ribbon club with many more awards from the banquet.

We went over what we were planning to do for the December meeting and planned to have a Christmas party. At the end of the meeting we got to hear great project talks from Leland Kershner with his moose calling and Asher Lund talking about hippology.

Respectfully submitted,

UCAP Seeks Volunteers to Make a Difference

The holiday season is upon us, but before we know it tax season will begin. For low to moderate income families, who can't afford to pay to get their taxes prepared, United Community Action Partnership (UCAP) is again offering free tax preparation clinics in Hutchinson, Jackson, Marshall, Redwood Falls, Willmar, Windom and new this year-Worthington! The program's success depends on many people with big hearts to make it happen. "Volunteers make our tax program possible," said Michelle Jensen, UCAP's Family Services Manager. "They can't happen without the help of people in our communities."

UCAP offers tax clinics in partnership with the United Way of Southwest MN, the MN Department of Revenue, the Internal Revenue Service, and other community partners to ensure that taxpayers receive their full tax credits and refunds. People don't need tax knowledge to volunteer. "We provide training so that anyone can become an IRS certified tax preparer," Jensen said. "But we also need volunteers to greet people and help make sure they are prepared for their appointment."

Training for the volunteer tax site positions are scheduled to take place in several locations throughout the month of January. Anyone who is interested in learning more can contact **UCAP's tax team** at **507-476-9283**.

Tax clinics have been growing over the last several years, and that trend is expected to continue this year, as special MN tax credits are available, and more people will need to file to claim those credits. Jensen hopes that enough people will step forward this year to keep up with what will likely be record-breaking demand. "A few hours of someone's time can, literally, put thousands of dollars back into the pockets of households that need it most." Jenson said.

If you are interested in learning more about this high-impact program that served more than 2,700 households last year, bringing back almost 6 million dollars in refunds or would like to sign up to volunteer, please contact;

Neptune Ned & Local Chicken
Make Cameo Appearance at Gazette Christmas Party

Pics and commentary by Mark Minnick

Neptune Ned & Local Chicken made good on their promise to 'rocket in' for the Gazette Christmas Party. They gracefully declined to sample the potluck goodies, as they ate big on the long trip from Neptune.

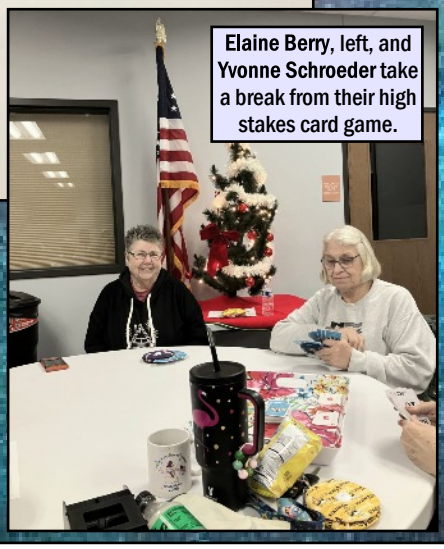

(Sorry, the forgetful editor didn't get a pic of the great potluck spread.)

They did hang out the whole time, watching folks havin' fun playing dice and card games. All in all, a pretty good evening. Then they grabbed some Chex mix and zoomed back to Neptune.

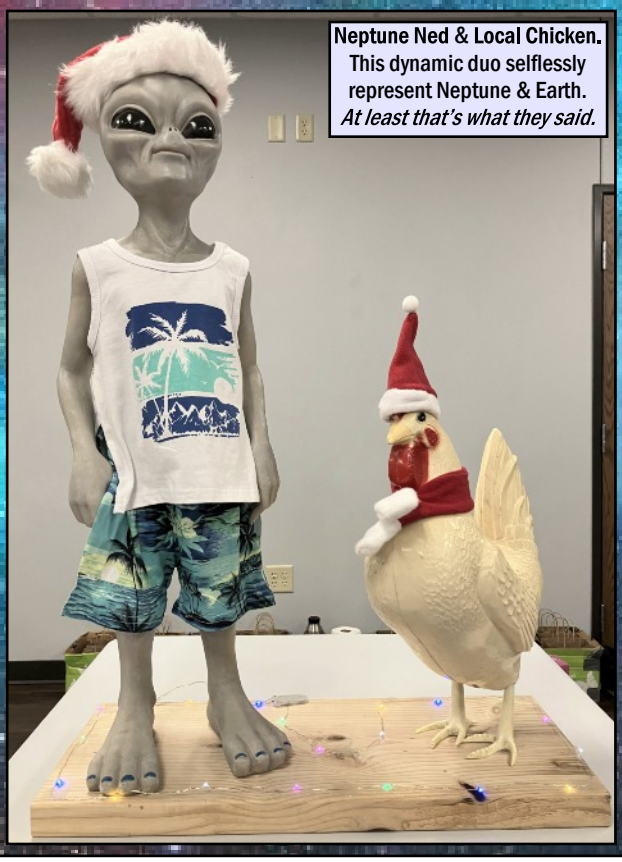

It's the Neptune Football League (NFL) playoffs, ya know...

The guy with all the money, Mel Maas, celebrates his recent big win. You go Mel!

Meeker County Librarian

Adults, it's time for your annual reading program! The kids get the summer reading program, and the adults get Winter Reads, Pioneerland Library System's program that begins in January. Cosmos Library's program this year will run Thursday, January 2, through Saturday, March 15.

January 2nd is the first day you can sign up for the program, but you can sign up anytime through early March. The advantage of signing up early is that you count the books you read after you have signed up, so you have more time to complete it. The other is that the prize choices are available while supplies last, so the earlier you turn in a reading log, the more choices you will have.

When you sign up, you'll get a free book bag (while supplies last) and a reading log to keep track of the books you read. You can read fiction or nonfiction, old or new, library books or your own, print, e-books, or audiobooks – it's all your choice!

Once you have read and rated three books, bring your reading log back to the library so that you can choose a small prize. If you read three more by March 15, bring it back in to choose an additional prize. The program can't be repeated this year once completed.

Prize choices this year are mugs, book lights, can insulators, large candy bars, small notebook and pen sets, and potholders.

Kids ages 5-18 are invited to build with LEGOs at the Cosmos Creation Club on Monday, January 27, 2:00-3:00 p.m. Children ages 5-7 must be accompanied by a teen or adult caregiver. There's no need to sign up, and everything is provided. Pokémon TCG won't be held this month. We're anticipating a restart of that program in the spring.

Cosmos Library will be open regular hours the week of New Year's Day, since the holiday falls on Wednesday when the library is normally closed. The library will be closed on Monday, January 20, for Martin Luther King Jr. Day.

Cosmos Library is located in city hall. The phone number is 320-440-1012, and the website is www.cosmos.lib.mn.us. Library hours; Mondays 10-5, Tuesdays 2-5, Thursdays 2-6, Fridays 2-5, and Saturdays 10-1.

Cream of Cauliflower Soup

By Grace Kamrath

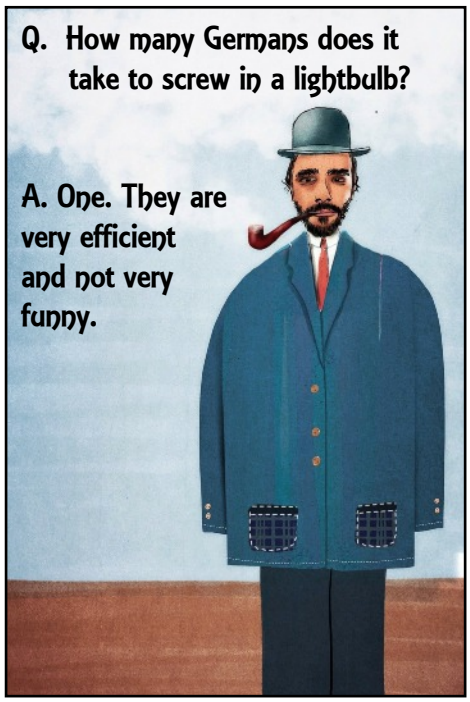

HAPPY NEW YEAR ALL. Hope everyone had a blessed Christmas season. I thought that you might like another soup recipe to add to your collection. I made it just this week and we enjoyed it very much. It is CREAM OF CAULIFLOWER SOUP. I love the German word for cauliflower which is blumenkohl. Translated into English is 'flower cabbage'. Anyway you can surely substitute broccoli for the cauliflower or use some of both.

CREAM OF CAULIFLOWER SOUP

- 1/2 c. grated carrot
- 1/2 c. chopped onion
- 1/4 c. chopped celery
- 2 T. butter
- 1/4 c. flour
- 1 c. chicken broth
- 1/4 t. salt
- 2 c. milk
- Approximately 2 c. chopped cauliflower (cooked)
- 1 1/2 c. shredded cheese

Cook carrot, onion and celery in butter. Add flour and mix well. Add broth, salt and milk. Cook until well mixed and thickened. But do not boil. Add cauliflower and cheese. Heat through and enjoy.

As Gazettte editor, I have to admit to a terrible omission regarding the **Bill Reinke Whozit** from the October issue. Purveyor of ancient Cosmos area knowledge, **Mel Maas** stopped by my mancave one day and identified Bill. I also received a bunch more Cosmos knowledge while conversing with ol' Mel. What a deal. I'll have to be careful, I may be running low on gray matter. A KewPie to you Mel!

WILLARD REINKE

Anyway...Three readers knew the "Faces of the Future" in the December issue. KewPies to them.
Whozit pictures are of my siblings and self: **Mary, David, Marlene** and **Marilyn Peterson**

Then there was this humorous email from a CHS alum. *(BTW Dolly, you don't have to be first to get a KewPie, just correct.)*

Interested in Adult Classes? Register By Jan.5

ADULT NIGHT classes sponsored by the Cosmos School are being planned again for this winter. To organize these classes, it is necessary to conduct a survey to determine the types of classes wanted and the number of adults who are interested in each class.

This survey will be sent to parents of children in school. If you do not receive a newsletter containing the survey, but are interested in these classes, fill out the survey at the bottom of the column and return it to the school or contact the High School Principal's office.

Classes are being proposed in the following areas: Art, Industrial Arts, Commercial and Physical Education.

Each class requires a minimum of ten students. Classes such as Art and Industrial Arts have a maximum limit of 20 members. The Physical Education classes can be larger.

The classes are tentatively scheduled to begin the week of January 15. The night each class will meet will be determined by the instructor and students according to convenience. The classes are 30-hours in length. They will meet once a week for ten weeks and each class period will normally last three hours.

Adult classes can only be conducted if there are enough people interested. Therefore, if you are interested don't delay in turning in your survey. The survey must be returned to the high school Principals' office by Jan. 5.

If you would like additional information concerning this matter, call the High School at telephone 877-2065.

IF YOU are interested in taking any of the adult classes listed below, indicate it in the blanks provided and return this form to the school. Also, please provide us with the other information requested. Please list any other classes of interest which are not listed below on the back of the form.

New Homes Built In Cosmos

Cosmos is gradually growing. As we look around our town we can see that new houses have been going up here and there. In the past 2 years five new houses have been added to our village. They are pictured below.

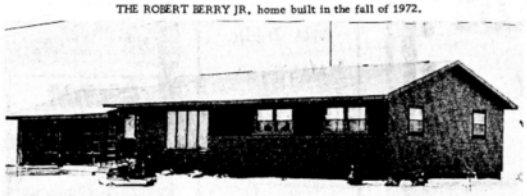

THE THOMAS SMITH home built in the fall of 1972.

THE HAROLD HESSER home built in the fall of 1971.

THE ROBERT BERRY JR. home built in the fall of 1972.

THE DONALD GRAGES home built in the fall of 1971.

THE ARNOLD SCHIRO home built in the fall of 1972.

Parent-Teacher Conference Scheduled For Cosmos High

COSMOS--Cosmos High School is planning to conduct Parent-teacher conferences on Monday, Jan. 8. The conferences will be held in the gymnasium from 9 to 12 noon and 12:30 to 3 p. m.

High School teachers will be stationed at tables in the gymnasium. Conferences may be held with any of the teachers concerning a child's school progress. However, it is suggested that the length of each conference be held to a minimum so that everyone has an opportunity to talk to the teacher they want.

To eliminate the possibility of all parents coming at the same time of day, the parents whose last name begins with "A" through "M" should come in the morning and those whose last name begins with "N" through "Z" should come in the afternoon. However, parents who have a conflict should make every effort to attend whenever they can during the day.

Parents may wish to give attention to some of the following points before coming to the conference:

1. Know the classes your child/children are taking and the names of the teachers.
2. Any difficulties of adjustment your child appears to have at school or at home.
3. Any unusual health situations.
4. Any evidence of unusual emotional reactions.
5. Any other matter which you believe helps or hinders the progress of your child.
6. Any remarks your child has made concerning situations at school which please or displease him.

Homemakers Hotline

by Deloris Bollin, Extension Home Economist

SNOWMOBILE SUIT--Warmth of a snowmobile suit depends on the interlining. This is where dead air space is trapped between the fibers.

Fiber fill is the most popular interlining. Its quality and weight will determine fiberfill and does not conform to the body as well. The heavier the gauge of the foam, the warmer it will be.

U.S. IS A MOBILE NATION: Did you know that 40 million Americans change their home addresses at least once ayear? One fourth of all Americans travel to a different county to get from their home to their jobs? Many wives of managers in business move about 20 times during their marriage?

PREPARING CHILDREN: A T.V. series on "Preparing Children for the 21st Century" will be starting on Jan. 9 at 8:30 to 9 p.m. on Channel 2. This series of 11 program looks at characteristics children must develop to be prepared for the future.

It is designed to help parents better understand their children. For additional information please contact me at 693-8515. I'll send you a brief outline of the entire series.

SNOW AWAY: With winter fast approaching, I suppose some of us will be shoveling snow. Prepare your snow shovel for the coming winter with a coat of floor wax. The wax helps prevent the scoop from rusting and also makes the snow slide off without sticking.

RIGHT BUTTONS: During winter many homemakers find time to do sewing projects. Here is an idea when shopping for buttons for when your sewing it is difficult to tell how a particular button will look. Take a sample of material along, cut two or more slashes in it, then you can fit a button on the card through the slash and see how it will look. A different button can be put in each slash for easy comparison.

PRESHRINK IDEA: Always preshrink all double knit fabrics, no matter what price you pay for them. Also preshrink the notions such as zippers before you start to sew.

THOUGHT FOR THE WEEK: He who receives a good turn should never forget it; he who does one should never remember it.

Walter Meets With Santa

6th year in a row!

Pic by Deb Minnick, commentary by Mark Minnick

Walter Schmeling kept his "Cosmos Santa Event" perfect attendance record intact again this year! Accompanied by his dad **Alex**, sister **Lois** and mom **Shana**, word has it he had a great time mixing it up with the jolly ol' fat man.

I heard from an elf that he would like Santa to bring him bubble bath bombs. Jmho here, that may be fine and dandy for keeping yourself clean, but you gotta up your game in the wishes department kid. Let's go here…

Start asking for a mini bike or a BB gun: Something that's fun and makes gramma nervous. ;) Just sayin'… Hey, maybe a swimming pool?

Thoughts & Observations

By Mark Minnick
"Insect Loving Idiot" Editor of **The Galactic Gazette** **wordnut66@outlook.com**

I had a good Christmas, I hope all of the readers did too. I received some wonderful gifts from friends and family. Really cool stuff, including a pair of **Steiner binoculars** from our four kitties, i.e. the **"Little Monsters"**. Don't know how the smart little buggers knew I wanted Steiners, but they knew. ;)

Even though I didn't go, **the Santa Semi Event** sure looked like a good time. A great holiday tradition in Cosmos, for young and old. A big thanks to all involved in making this event possible. :)

Right now I am looking forward to New Years Day. Not that I'm gonna party down or anything. That train left the station years ago. I may check out the **Cosmos Senior Citizen Club New Years Bash** at city center. Starts at 1 PM. Just hang out, eat some good food, have a few laughs and enjoy a **Hamm's** or two. Should be a hoot. C'mon over and join in.

And Happy New Year by the way!

Sure looks like we are experiencing another **"Non-Winter"**. Unusually warm and very little snow. Easy on us old people at least. Oh well, there has been winters like this before and there will be more like it in the future. Uff da, tough sledding.

At least I don't have struggle in my electric chair, trying to get back and forth to the mancave. You know, twenty five below, six feet of snow and uphill both ways. Uff da. Then.

Speaking of my electric chair, I love the mobility that it has given me over these last years. I have been all over town with it, putting on many a mile. I was a little taken aback when I noticed that the front tires had worn through. **Wow** is all I can say. So I hopped online, found a new pair and installed them.

Now I'm thing about a pair for the back as the traction is really lacking in the white stuff…uphill both ways too. Lordy…

Vikings football has really been intriguing this year. The team is performing way better than expected, something I'm not used to. Even if they don't get to the Big Game, it's been fun so far. It'll be interesting to see how they handle Green Bay and Detroit. Stay tuned, I guess. ***And Yay, Ra, Ra!!!***

Even though I can't ice fish anymore, I do keep in touch with a few buds that are having a good time catching fish. Good for them I say. it's tough to beat a good day on the ice, whether by yourself or with friends. Probably the hardest part is dragging with all of the tackle that you **must have** to catch 'em. Then there's the load of **snacks** and **beverages**. Don't wanna get hungry or thirsty out there, fer sure.
